HOBBIES

Cycling | Do Physical Exercise | Cook

EXPERIENCE

LITEBOX | Frontend Developer

OCT 2021 - JAN 2023

- I collaborated as a frontend developer in the development of the marina administration system for a client in the United States.
- I reduced the bugs found in the frontend by 15%. This generated a 20% increase in the application's performance.
- I worked on the development of new layouts, forms, API consumption, data manipulation on the client, as well as the refactoring of several components, all of this adapted to the requirements requested by the client.

Technologies: React | TypeScript | GIT | Styled Component

DIGIFIANZ | Web Developer

JAN 2018 - SEP 2021

- I was in charge of the development and deployment of at least 20 projects for well-known companies.
- I collaborated with Designers and Project Managers to define new ideas and propose efficient solutions such as: Implementation of Carousels, visual effects, organization of sections, animations, among others.
- I improved the usability, accessibility and performance of the websites under my charge by 70% through the use of Lighthouse, SEO techniques and Pingdom.
- I worked on the development of layouts, forms and modules for the websites.

Technologies: HTML | CSS | JavaScript | jQuery | HubSpot | WordPress
